The views around us are amazing, with the colourful Jebel Sarhro mountains to the north, and the star-

CHALLENGE GRADING

Our trips are graded from Challenging (Grade 1) to Extreme (Grade 5).

This trek is graded Challenging (1). Main challenges lie in the intense heat, and the terrain - particularly soft sand dunes, which can be very tiring.

Many factors influence the Challenge Grading, such as terrain, distances, climate, altitude, living conditions, etc. The grade reflects the overall trip; some sections will feel more challenging than others. Unusual weather conditions also have a significant impact, and not all people are tested by the same aspects.

Our grading levels are intended as a guide, but span a broad spectrum; trips within the same grade will still vary in the level of challenge provided.

After another amazing night under the stars we set off on the last section of the route, continuing through the low hills until we emerge in open desert, with inspiring views of the barren mountains around us.
